DETAILED ACTION

Claim Objections

Claims 13-17 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 13-17 not been further treated on the merits. It is noted that claims 13-17 ultimately depend on “any one of claims 1-12”, and claim 4 depends on claims 2 or 3, as such the multiple dependent claims depend on a multiple dependent claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-12 and 18 are indefinite wherein the inclusion of parenthetical phrases “()”, brackets “[]”, and braces “{ }” leaves ambiguity and uncertainty as to whether the contents inside the parenthesis, brackets, and braces are intended as being that which applicant intends as their invention. Clarity is respectfully requested. Removal of parentheses, brackets, and braces will obviate this rejection.

All claims which depend from an indefinite claim are also indefinite. *Ex parte Cordova*, 10 U.S.P.Q. 2d 1949, 1952 (P.T.O. Bd. App. 1989).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Yuasa et al. (Relative Nucleophilicity of the Two Sulfur Atoms in 1,5-Dithioglucopyranoside”, Angewandte Chemie, International Edition in English, 36(8), pp. 868-870, 1997).

Yuasa et al. disclose compounds which meet the limitations of that instantly claimed in claim 18 wherein R²¹⁻²⁴ are acetyl groups, R²⁶⁻²⁷ are H, and R²⁵ is halogen. See compound 2x on page 869 wherein X is F or Cl.
